## PROJECTS

### MyQuiz

MyQuiz, built on the MERN stack, enables users to create personalized quizzes with custom questions and answers. Each quiz generates a unique 6-digit code for participants to join. Hosts can monitor quiz results in real-time via the dashboard, enhancing quiz management and engagement.

### E-Mandi

E-Mandi, a MERN stack project, empowers farmers to sell their goods directly to buyers, eliminating intermediaries. Buyers can purchase produce directly from farmers, ensuring fair prices and benefiting both parties. This decentralized marketplace fosters transparency and equity, providing a platform where farmers receive fair value for their products.
